Virtual event series "Plastik Düşler Sahnesi" (Stage of Plastic Dreams)
in collaboration HYPERCORTEX - Pera Museum and with the support of the British Council.

Organized in parallel to the A Question of Taste exhibition, the "Plastik Düşler Sahnesi" event series brought musicians and visual artists together in a virtual event space open to participants. The series aimed to offer an experience similar to that of a physical venue with its spatial sound design, interactive objects and interaction opportunities between participants in an alternative format to online events, which have become increasingly popular due to the pandemic, while supporting musicians and visual artists who have been greatly affected by the pandemic.
